BAR FIGHT PICTURES?

Should Edmonton Not See Jeffries-Johnson Fight Pictures?

WHAT SOME LOCAL MINISTERS THINK

Dangerous to Moral Tone of the Community Say Some—Others Differ

MOVEMENT WIDESPREAD

Ontario Bats Them—England and India Also Taking Action Vancouver to Have Them

American cities are placing a ban on the moving pictures of the recent prize-fight between Jeffries and Johnson and that influences are being brought to bear to prevent their production in several other countries. The Capital has secured the opinions of a number of local clergymen of various denominations.

The Rev. Jas. Coulter, pastor of the West End Methodist Church, when seen by a reporter was most emphatic in his denunciation of the moving pictures. "I have noticed with great satisfaction that in Great Britain and the United States influences are being brought to bear to prevent the production of these pictures. The fight itself is a disgrace to civilization and should not be allowed, and pictures of it, which so far as their influence goes are the next thing to being as bad. The pictures, at least, should not be tolerated, in any corner of the Dominion."

Thinks They are All Right
One clergyman, however, the Rev. Rodol. Jefferson, rector of Christ Church was inclined to be tolerant. When asked his opinion, Mr. Jefferson smiled.

"You know, I am a bit of a sportsman," he said.

"Well, are you opposed to the production of the pictures?" asked the reporter.

"I don't see any reason why they shouldn't be shown," replied Mr. Jefferson. "Boxing is a manly sport and every man should be educated in the science of self-defence. Scientific boxing, whether it is for a money prize or not is just as good as any. Of course I am speaking from the position of a sportsman and a follower of athletics."

IS OPPOSED TO THEM

Following are a few more opinions: Rev. H. S. Sneyd, Synagogue Avenue Baptist Church: "Now you may say that I am strongly opposed to the production of moving pictures of the Jeffries-Johnson prize fight. I am opposed to prize fighting itself and in consequence do not favor by any means the distribution of the demoralizing effect that the fight must have had in the place where it was held. The pictures are not much better, as far as the after-effect is concerned than the fight itself. In publishing my opinion you may make it as strong as you like."

Mr. C. A. Myers, Westminster Presbyterian Church: "I consider a prize fight a relic of Roman barbarism and could not be anything but degrading."

TO PAY UNION WAGES ON GOVERNMENT WORK

Premier Sifton Issues Orders to That Effect—Rush Work on Lethbridge Court House

Lethbridge, July 8.—Having had complaints made to him that the court house being erected here was not commodious enough, W. A. Buchanan, M. P., laid them before Premier Sifton when he met him in Calgary on Monday. The Premier said that the court house would be rushed to completion and that he would look over the plans to see if the interior could not be better arranged.

Mr. Buchanan told the Premier that complaints had been made to him that the union scale was not being paid for work on the provincial jail. The Premier said that the scale is supposed to be paid for all government work.

TRY TO SAVE KING FROM GALLOWES

Letter Has Been Sent to Ottawa Asking That Sentence Be Reduced

IMPRISONMENT FOR LIFE

Is What Is Asked for—Convict King Remains Cheerful as Last Day Approaches

It was learned at the mounted police barracks this morning that W. G. King, who is incarcerated at Fort Saskatchewan awaiting his execution for the murder of Joseph Hindahl, which will take place at the Fort on July 21st, still displays the outward calm which characterized him throughout his trial and when sentence was pronounced upon him.

IS RECONCILED TO FATE

He is, it is understood, quite reconciled to his fate, although it is just possible that his counsel, Mr. H. H. Robertson may be able to have the sentence commuted to life imprisonment. Mr. Robertson has written to the Minister of Justice but has received no reply yet.

Officials of the mounted police believe that prior to execution King will confess his guilt and also other crimes which they suspect him of having committed. There is insufficient evidence against him in these other cases.

IS A CANDIDATE FOR MARRIAGE

Pudicity has helped the mayor to make good in the matrimonial business. The other day he received a letter from a young lady in eastern Canada, who commissioned him to find her a husband in this district. "A good, honest young man, not too penniless."

This morning His Worship, all smiles, and full of glee, displayed a letter from a young "candidate" in this district who is following agricultural pursuits, "asking more particulars about the eastern fair one. He thinks he could fill the bill seeing that the young lady in question is not 'too exacting.'"

The young man is very anxious to ally himself with a young lady who can do almost anything, is rather good looking—so her friends say—who can sing, play the piano, who is 21 years of age, 120 pounds in weight, and 5 feet 4 inches in height."

KOLAPORE MATCH WON BY ENGLAND

Canadian Bisley Team Doing Well—Won Mackinac Cup Yesterday

RUNNING UP BIG SCORES

Are Likely to Take Several More Cups Before the Meet Is Ended

Bisley, July 8.—Mother Country won Kolapore Cup.

Bisley, July 8.—The Kolapore cup match is being fired today. This cup was won last year by Canada. The competition is open to teams of eight. The first 31,000, 300 and 600 yards. The number of shots at each range is seven for each man. First prize is a cup donated by the Rajah of Kolapore in 1871. A special commemorative silver trophy is given by the National Rifle association to the Captain Adjutant and each member of the winning team. A prize of £28 is also donated by the N. R. A. and is awarded to the team, exclusive of the mother country team, which makes the largest aggregate scores in the competition.

W. A. Mackinac Cup
Bisley Camp, Eng., July 7.—Making the top score at each of the three ranges, the Canadian team easily today carried off the Mackinac Challenge Cup, perhaps the most coveted trophy shot at in the great annual National Rifle Association meeting by teams of the Old Country and the overseas states. Seldom has the cup been so decisively won for the Canadians after giving a brilliant display at the opening stage of 800 yards, followed it up by relatively good shooting at both the 900 and 700 yard ranges. The victory was very popular, the Canadians being very great favorites at the camp.

In addition to the success of the team Lieut. F. H. Morris of Ottawa, made the only possible in the match, this being at the initial range, while another Canadian, Color-Sergeant Freeman, of Hamilton, Ontario, made the top score for the match of 145. The match was also a decided tribute to the Ross Rifle which outside the Canadians, was used only by Major Varley and Private Gray, of the English team.

Twelve Out of Twenty

The Canadians, as well as each of the competing teams, consisted of twelve men, picked out of the twenty officially representing their country, the selection being made by the captain of each team. Sergt. McInnes, of Edmonton, was the only westerner included. Tomorrow the Kolapore Cup is also open to the empire, but eight men only to form each team and the shooting is at 300, 500 and 600 yards, with seven shots at each range. The Mackinac Challenge Cup was given by the late Col. Mackinac in 1871, and conditions being ten shots each at 800, 900 and 1,000 yards. A commemorative silver bowl is given to the captain, adjutant and each member of the winning team, there being no money prizes.

LAURIER WILL BE HERE TWO DAYS

Mayor Lee has received the following letter from Mr. F. R. Pardee, M. P., chief Liberal whip, who is acting in advance for Sir Wilfrid Laurier on the latter's western tour.

Ottawa, June 25th.
His Worship, Mayor Lee,
Edmonton:
Dear Sir:—Sir Wilfrid has forwarded me your letter addressed to him of the 19th. He and his party expect to arrive in Edmonton on Monday, August 8th at 18 p.m. and a meeting will be held in Edmonton on Tuesday night at 8 o'clock. The party, leaving on Wednesday. If there is any information you may require no doubt you can get it from the committee in Edmonton.

Yours truly,
F. F. PARDEE.

TEDDY BEAR GOES, "CESAR" IS LATEST

Plush Model of Late King's Favorite Dog Is Newest Plaything

New York, July 8.—The London correspondent of the Sun writes as follows:

The Teddy bear has been supplanted in London by Caesar, the late King's dog, who has been reproduced in toy form as the newest plaything for children. He has been copied as faithfully as possible, with his rough coat, made of plush and all his joints movable. Attached to his collar is a medallion with the inscription "I am Caesar," which King Edward had engraved on the silver medallion the original Caesar were fastened to his silver collar.

Meanwhile the real Caesar is quite unconscious of his fame and is resting at St. James's until he goes with Queen Alexandra to Denmark. He has settled down once more to an ordinary existence and consents to eat and drink, thanks to the ministrations of the veterinary surgeon who has been uniting in his efforts to keep the little dog alive and well.

WOMAN AVIATOR KILLED IN FRANCE

Baroness De Laromche in Fatal Accident at Aviation Meet at Rheims

SHE BECAME CONFUSED

At Approach of Two other Aeroplanes and Lost Control of Machine

Bethany Plains, Rheims, July 8.—Baroness De Laromche, the French woman aviator, was fatally injured here yesterday afternoon by falling from a height of 50 metres.

The baroness had flown around the field once at a height of 80 metres when suddenly in front of the applauding tribunes she appeared to become frightened and confused at the approach of two other aeroplanes. She started to descend, but while still 30 metres from the ground lost control of the machine. The aeroplane turned over and fell like a log. The baroness' legs and arms were broken. Her mangled body was extricated from the wreckage and conveyed to the hospital, where she is dying. At the hospital it was found that her skull was fractured. This is the second fatal accident at this meeting; as Wachter, was killed last Friday.

EDMONTON ASKED TO HELP ADVERTISE

Publicity Bureau at Washington to Boost Canadian West Being Formed

COMMISSIONERS TO ACT

Will Consider Proposal at Their Regular Business Meeting This Afternoon

The city commissioners have received a letter from the Canadian West Bureau, Washington, D.C., inviting the city's co-operation in the formation and maintenance of the bureau, which is now in a state of organization. The purpose of the bureau is to disseminate to the people of the United States information relative to the opportunities for investment and settlement in the towns and cities of the Canadian West from the lakes to the Pacific coast. It is proposed to establish and maintain in Washington a central exhibition bureau where visitors may obtain without charge information about all the phases of the development of the west.

Washington Good Place

There are several reasons why Washington was selected for the headquarters of the bureau. It offers better advantages than other cities on account of the fact that it is the capital of the republic and is visited by more Americans and foreign tourists than any other places. Another reason is that Canada is not represented at the American capital while Mexico and several South American republics have institutions there such as the proposed Canadian bureau.

Edmonton's Share \$200

It is estimated that the cost of maintenance of the bureau would be about \$10,000 and that amount would be realized by subscriptions from the cities and towns in the west which would enter into the scheme. These municipalities would be assessed according to population. Edmonton's share being about \$200.

It is proposed that an advisory board be constituted which would be composed of representatives of each of the municipalities.

The letter which was received, was supplemented by a number of explanations and recommendations by prominent American citizens.

The city commissioners will discuss the proposal at their regular meeting this afternoon.

BISHOP OF LONDON TO TOUR CANADA

Will Inspect Missions in This Country—Lord Brassey to Study Colonization

London, July 8.—Sydney Arthur Fisher, Canadian Minister of Agriculture, and Archbishop Langevin sailed for home yesterday on the steamer Royal Edward. The Right Rev. Arthur Foley Ingram, Bishop of London, will sail for Canada in August to inspect the missions there. Lord Brassey will sail on Saturday for Quebec in his yacht Sunbeam. He goes to Canada to study the question of emigration of children and a scheme for colonization of families. He will spend a month in Canada and will go west to the Pacific Coast.

FIGHTING IN FORMOSA

Japanese Troops Killed and Wounded in Fight

Victoria, B. C., July 8.—Heavy fighting has occurred in Formosa in connection with the Japan "Little War" with the Formosa natives near Guilan.

On June 15th, a number of native bands combined and surrounded the Japanese troops, who extricated themselves with a loss of 62 killed and wounded.

Three battalions of infantry and a battery of artillery were hurled to the scene from the Taipies, and 40 natives were dispersed with much loss. The casualties on Japan's side totalling 78 killed and wounded.

ROOSEVELT PROMISES A CAMPAIGN SPEECH

Will Help a United States Senator Get Re-Elected

Oyster Bay, July 8.—Albert Everidge, United States senator from Indianapolis and one of the most prominent and consistent of the Republican insurgents, came down from Sagamore Hill yesterday with a promise from Theodore Roosevelt to deliver a campaign speech in his fight for re-election to the Senate.

BOY OF FOURTEEN GETS TWO YEARS

Fred Sadousky Goes to Portage La Prairie for the Theft

IS SECOND CONVICTION

Another Youthful Offender Gets Three Years on a Similar Charge

Fred Sadousky, a boy of fourteen years of age, was sentenced by Inspector Worsley of the mounted police to serve a term of two years in the Portage La Prairie industrial school at the mounted police barracks last night. Sadousky was convicted of stealing articles from a tent near the packing plant on Tuesday last and shortly afterwards was arrested by Corporal Marshall. This is the second time the boy has been found guilty of theft and, while he was serving a term for the first offence at a local industrial he made his escape.

Sadousky will be taken to Portage La Prairie on Monday in company with another youthful offender, Chas. Kurtz who is to serve three years at the same institution on a like charge. Kurtz was sentenced by Justice of the Peace Gilbert.

Started at Winnipeg

Winnipeg, Man., July 7.—All carmen employed on the western lines of the C.N.R. throw down their tools at 11:30 o'clock this morning and announced that they would not return to work until the company agrees to sign the schedule demanded by them which provides a substantial increase in wages. The strike was expected yesterday but the men consented to a respite of 24 hours in order that S. J. Hungerford, superintendent of motive power, might communicate with the company's officials in Toronto.

Extend Over Whole System

The men then announced their intention of striking, and within a few minutes of the decision of the company being known, every man quit work and the officers of the unions notified the other shops along the C.N.R. system between Port Arthur and Edmonton and they, too, will lay down their tools. In fact a number of shops have already done so, and by tonight there will not be a man working. Some 400 are out on strike in Winnipeg. The trades, electricians, carpenters, blacksmiths, truck repackers, painters, glaziers, in fact every one in the yards who works around either building or repairing cars.

Helpers Also on Strike

With the trades the helpers are also out on strike and the men are determined to hold firm in their demands as they claim there is shortage in labor all over the country at the present time, so the company will be unable to fill their places with non-union men. Less trouble may arise in the yards the company swore in a number of special officers this morning and this afternoon they are patrolling the yards seeing that no harm comes to the company's property. However, it does not appear to be necessary, for after quitting their work the men walked away in an orderly manner, although a few stopped to discuss the situation with their friends in an orderly way.

Will Discuss Ways to Improve Transaction of City's Business

Commissioner Bouillon has called a meeting of the heads of all the civic departments which will be held tomorrow afternoon at 2 o'clock in the council chamber. A discussion of ways and means by which a quicker and more satisfactory transaction of the city's business may be obtained will be discussed.

C.N.R. CARMEN GO ON STRIKE

Fifty in Local Shops Walk Out on Orders From Winnipeg

IT WILL NOT AFFECT THE COMPANY MUCH

Men Want an Increase of Five Cents an Hour in Their Wages

STARTED AT WINNIPEG

All the Company's Line Between Port Arthur and Edmonton Is Affected

In obedience to orders from Winnipeg, C. N. R. carmen employed by the C. N. R. went out on strike yesterday afternoon at 3 o'clock. The order came just about that time and the men stopped work immediately and left the shops. The men themselves know very little in the way of details beyond the fact that the men demand a five per cent. increase in the pay schedule. Superintendent Brown was seen by a Capital reporter this morning, but he had very little to say.

"We know practically nothing at this end of the line," said Mr. Brown. "All we know is that the men walked out in obedience to orders they received from headquarters in Winnipeg. We will suffer no inconvenience here as we have plenty of equipment; and besides there are nearly 150 men who are not affected by the strike. There is no danger of any kind of violence being shown by the men for they are all sensible and besides they are loyal to the company. They simply obeyed union orders, which they are obliged to do."

The strike was expected yesterday but the men consented to a respite of 24 hours in order that S. J. Hungerford, superintendent of motive power, might communicate with the company's officials in Toronto. This was done and when a committee of the men waited on Mr. Hungerford this morning he told them plainly that the company could not accept their demands. He had received instructions to this effect from Toronto, he said, and that he personally could do nothing without orders from Toronto.

PASTOR RUSSELL'S SERMONS

The Daily Capital will in its issue of tomorrow commence the publication of the weekly sermons of Pastor Russell, who is carrying on the work of Henry Ward Beecher as an independent preacher in the city of Brooklyn. Pastor Russell's sermons have aroused an unusual degree of interest throughout both America and Europe. On a recent visit to Great Britain he was accorded a reception of great heartiness. His preaching is quite unsectarian and thus makes a very wide appeal. The sermons will appear regularly in the Capital's Saturday issues.

TEDDY BEAR GOES, CAESAR IS LATEST

Plush Model of Late King's Favorite Dog Is Newest Plaything

New York, July 8.—The London correspondent of the Sun writes as follows:

The Teddy bear has been supplanted in London by Caesar, the late King's dog, who has been reproduced in toy form as the newest plaything for children. He has been copied as faithfully as possible, with his rough coat, made of plush and all his joints movable. Attached to his collar is a medallion with the inscription "I am Caesar," which King Edward had engraved on the silver medallion the original Caesar wore fastened to his silver collar.

Meanwhile the real Caesar is quite unconscious of his fame and is resting at Sandringham until he goes with Queen Alexandra to Denmark. He has settled down once more to an ordinary existence and consents to eat and drink, thanks to the ministrations of the veterinary surgeon who has been uniting in his efforts to keep the little dog alive and well.

TOWN THREATENED

Forest Fires Are Sweeping Over Northern Michigan

Houghton, Mich., July 8.—Dangerous forest fires are threatening the town of Ripley near Hancock. There has been no rain here for nearly two weeks. Forest and grass fires are raging in the vicinity of Ontonagon, driving out homesteaders and destroying small settlements in timberland areas.

WOMAN AVIATOR KILLED IN FRANCE

Baroness De Laroche in Fatal Accident at Aviation Meet at Rheims

SHE BECAME CONFUSED

At Approach of Two other Aeroplanes and Lost Control of Machine

Bethany Plains, Rheims, July 8.—Baroness De Laroche, the French woman aeroplaneist, was fatally injured here yesterday afternoon by falling from a height of 50 metres.

The Baroness had flown around the field once at a height of 80 metres when suddenly in front of the applauding tribunes she appeared to become frightened and confused at the approach of two other aeroplanes. She started to descend, but while still 50 metres from the ground lost control of the machine. The aeroplane turned over and fell like a log. The Baroness' legs and arms were broken. Her mangled body was extricated from the wreckage and conveyed to the hospital, where she is dying. At the hospital it was found that her skull was fractured. This is the second fatal accident at this meeting, as Wichter, was killed last Friday.

EDMONTON ASKED TO HELP ADVERTISE

Publicity Bureau at Washington to Boost Canadian West Being Formed

COMMISSIONERS TO ACT

Will Consider Proposal at Their Regular Business Meeting This Afternoon

The city commissioners have received a letter from the Canadian West Bureau, Washington, D.C., inviting the city's co-operation in the formation and maintenance of the bureau, which is now in a state of organization. The purpose of the bureau is to attract to the people of the United States information relative to the opportunities for investment and settlement in the towns and cities of the Canadian West from the lakes to the Pacific Coast. It is proposed to establish and maintain a Washington central exhibition bureau where visitors may obtain without charge information about all the phases of the development of the west.

Washington Good Place

There are several reasons why Washington was selected for the headquarters of the bureau. It offers better advantages than other cities on account of the fact that it is the capital of the republic and is visited by more Americans and foreign tourists than any other places. Another reason is that Canada is not represented at the American capital, while Mexico and several South American republics have institutions there such as the proposed Canadian bureau.

Edmonton's Share \$500

It is estimated that the cost of maintenance of the bureau would be about \$5000 and that amount would be realized by subscriptions from the cities and towns in the west which would enter into the scheme. These municipalities would be assessed according to population. Edmonton's share being about \$500.

It is proposed that an advisory board be constituted which would be composed of representatives of each of the municipalities.

The letter which was received, was supplemented by a number of endorsements and recommendations by prominent American citizens.

The city commissioners will discuss the proposal at their regular meeting this afternoon.

BISHOP OF LONDON TO TOUR CANADA

Will Inspect Missions in This Country—Lord Brassey to Study Colonization

London, July 8.—Sydney Arthur Fisher, Canadian Minister of Agriculture, and Archibald Langmuir sailed for home yesterday on the steamer Royal Edward. The Right Rev. Arthur Foley Ingram, Bishop of London, will sail for Canada in August to inspect the missions there. Lord Brassey will sail on Saturday for Quebec in his yacht Sunbeam. He goes to Canada to study the question of emigration of children and a scheme for colonization of families. He will spend a month in Canada and will go west to the Pacific Coast.

FIGHTING IN FORMOSA

78 Japanese Troops Killed and Wounded in Fight

Victoria, B. C., July 8.—Heavy fighting has occurred in Formosa in connection with the Japan "Little War" with the Formosa natives near Gairai.

On June 15th, a number of native bands combined and surrounded the Japanese troops, who extricated themselves with a loss of 62 killed and wounded.

Battalions of infantry and a battery of artillery were hurried to the scene from the Taipies, and the natives were dispersed with much loss, the casualties on Japan's side totalling 78 killed and wounded.

BOY OF FOURTEEN GETS TWO YEARS

Fred Sadosky Goes to Portage La Prairie for the Theft

IS SECOND CONVICTION

Three Years on a Similar Charge

Fred Sadosky, a boy of fourteen years of age, was sentenced by Inspector Worsley of the mounted police to serve a term of two years in the Portage La Prairie industrial school at the mounted police barracks last night. Sadosky was convicted of stealing articles from a tent near the packing plant on Tuesday last and shortly afterwards was arrested by Corporal Marshall. This is the second time the boy has been found guilty of theft and, while he was serving a term for the first offence at a local industrial he made his escape.

Sadosky will be taken to Portage La Prairie on Monday in company with another youthful offender, Cas. Kurtz who is to serve three years at the same institution on a like charge. Kurtz was sentenced by Justice of the Peace Gilbert.

PRESBYTERY IN SESSION TODAY

Authorize Borrowing of \$50,000 for Erection of Church on Fifth Street

The Presbytery of Edmonton met this morning in the First Presbyterian Church at 10 o'clock, the Rev. J. D. Dole, D.D., presiding as Moderator. The main question discussed was the building of the new Presbyterian Church on Fifth street and it was unanimously decided that the church should be built on the Fifth street site and the extension committee be authorized to borrow \$50,000 for the purpose.

Several "minor matters" of church extension were discussed and the meeting did not close till one o'clock. At 10 o'clock Mr. Dowling, B.A., was to have been ordained but owing to the press of business the ordination will not take place till this afternoon. At eight o'clock this evening the Presbytery will meet in the Robertson Church, and the congregation will assemble to witness the induction of their pastor, the Rev. K. G. Stewart. Refreshments will be served after the service by the ladies of the congregation. Professor Fraser, of Montreal, will be present and take part in the services.

C.N.R. CARMEN GO ON STRIKE

Fifty in Local Shops Walk Out on Orders From Winnipeg

IT WILL NOT AFFECT THE COMPANY MUCH

Men Want an Increase of Five Cents an Hour in Their Wages

STARTED AT WINNIPEG

All the Company's Line Between Port Arthur and Edmonton Is Affected

In obedience to orders from Winnipeg, 20 carmen, employed by the C.N.R., went out on strike yesterday afternoon at 3 o'clock. The order came just about that time and the men stopped work immediately and left the shops. The men themselves were very little in the way of details beyond the fact that the men demand a five per cent increase in the pay schedule. Superintendent Brown was seen by a Capital reporter this morning, but he had very little to say.

"We know practically nothing at this end of the line," said Mr. Brown. "All we know is that the men walked out in obedience to orders they received from headquarters in Winnipeg. We will suffer no inconvenience here as we have plenty of equipment and besides there are nearly 150 men who are not affected by the strike. There is no danger of any kind of violence being shown by the men for they are all sensible and besides they are loyal to the company. They simply obeyed union orders, which they are obliged to do."

Started at Winnipeg

Winnipeg, Man., July 7.—All carmen employed on the western lines of the C.N.R. threw down their tools at 11:30 o'clock this morning and announced that they would not return to work until the company agrees to sign the schedule demanded by them which provides a substantial increase in wages. The strike was expected yesterday but the men consented to a respite of 24 hours in order that S. J. Hungerford, superintendent of motive power, might communicate with the company's officials in Toronto. This was done and when a committee of the men waited on Mr. Hungerford this morning he told them plainly that the company could not accede to their demands. He had received instructions to this effect from Toronto, he said, and that he personally could do nothing without orders from Toronto.

Will Extend Over Whole System

The men then announced their intention of striking, and within a few minutes of the decision of the company being known, every man quit work and the officers of the unions notified the other shops along the C.N.R. system between Port Arthur and Edmonton and they, too, will lay down their tools. In fact a number of shops have already done so and by tonight there will not be a man working. Some 450 are out on strike in Winnipeg. The trades effected are carpenters, blacksmiths, truck repairers, painters, glaziers, in fact every one in the yards who works around either building or repairing cars.

Helpers Also on Strike

With these trades the helpers are also out on strike and the men are determined to hold firm in their demands as they claim there is shortage in labor all over the country at the present time, so the company will be unable to fill their places with non-union men. Last trouble may arise in the yards the company works in a number of special officers this morning and this afternoon they are patrolling the yards seeing that no harm comes to the company's property. However, this does not appear to be necessary for the men are in the men walked away in an orderly manner, although a few stopped to discuss the situation with their friends in an orderly way.

This is the season of the year for thin clothes. You'll find them at Kelly & Moore's.

PASTOR RUSSELL'S SERMONS

The Daily Capital will in its issue of tomorrow commence the publication of the weekly sermons of Pastor Russell, who is carrying on the work of Henry Ward Beecher as an independent preacher in the city of Brooklyn. Pastor Russell's sermons have aroused an unusual degree of interest throughout both America and Europe. On a recent visit to Great Britain he was accorded a reception of great heartiness. His preaching is quite unsectarian and thus makes a very wide appeal. The sermons will appear regularly in the Capital's Saturday issues.

300th YEAR OF KING JAMES' BIBLE

Tercenary of Authorized Version to be Celebrated in Toronto

SOME RARE OLD BIBLES

They Will be on Exhibition—Are Worth a Small Fortune

Toronto, July 8.—During the second week in February, 1911, the Toronto branch of the British and Foreign Bible Society will celebrate the terecentenary of the adoption of the authorized version, or as it is commonly known, "King James' Bible." It is proposed to have a special service on Sunday, February 12th, probably, in University Convocation Hall, and a public meeting in Massey Hall on the following Monday. The arrangements for the anniversary are in the hands of Prof. Gilmore, Rev. Mr. Cooper, Chancellor Burwash and Doctor Hoyles.

One of the features of the commemoration will be an exhibition in the Bible House on College street, just west of Yonge, of a valuable collection of antique copies of the Scriptures. Several of these are already procurable, and the chancellor will be pleased to hear from any possessors of ancient Biblical volumes, who do not object to loaning them for the occasion.

A First Edition

A genuine copy of the first edition of King James' Bible is already on hand in the Bible House on Yonge street, issued in 530, by a man named Rogers. Both of these choice relics are owned, and have been loaned to the society by a Toronto man. The cash value of the "authorized" copy would be in the neighborhood of \$300. Mr. Britnell, the well-known local dealer in books, has a rare copy of the Geneva Version, which he has kindly offered to loan to the society, for its anniversary exhibition. This is the version which was most in use before the adoption of King James' Bible. Before this, were the editions of Coverdale, the first translator after the Reformation and Tyndale. A re-produced copy of Tyndale's Version is in the possession of the Victoria College Library.

So far as is known, the Terecentenary observance in Toronto, which will be non-denominational, will be the only one of its kind in the Dominion. Similar anniversaries are being arranged by the Bible Society in London and New York.

FORMER ALBERTAN IN PECK OF TROUBLE

The following story taken from a recent edition of the London Overseas mail is full of interest to Edmontonians, inasmuch as Mr. Cochrane was for a long time a resident of Calgary, and at one time ran here in the Conservative interest against Hon. Frank Oliver:

"Found guilty of the heinous offense of being drunk at the wheel of a motor car, Mr. Thomas H. B. Cochrane, J. P. of Carlsbrook, who has just resigned the position of deputy-governor of the Isle of Wight, was fined £1 and 18s. costs, or fourteen days at Newport. The charge arose out of an incident which occurred in the Isle of Wight capital, as a large assemblage of Liberals were dispersing after a presentation to Mr. and Mrs. Godfrey Baring. A scene was created by the arrest of a motorist whose car was alleged to have almost run into a carriage.

"Mr. John Fardell, appeared for defendant, and, on his advice, Mr. Cochrane pleaded guilty.

"Supt. J. H. Galloway said that he was in High street, Newport, when he heard the sound of a motor hoort, and saw defendant driving towards him at a fast rate. He put up his hand and called upon him to stop, but defendant drove across High street, clearing the rear of a pair-horse carriage and an electric light standard, and pulling up behind a car. Witnesses went to defendant and told him he must not proceed, and that he was drunk and must get out of the car. Pointing to the seat beside him, defendant said, "No, you get in here," but witness took hold of his arm and assisted him to alight, where defendant then walked unsteadily to the police station, where he was charged. In reply defendant said, "Do as you like." Two doctors, telephoned for at defendant's request, being out, defendant said that his solicitor should be sent for, which was done. He was liberated on bail about two hours.

Mr. Fardell said that though defendant pleaded guilty, he did not admit that his condition was due to intoxication. For some months Mr. Cochrane had been ill, and under medical treatment, and later he had gone through a time of great anxiety and worry. Mr. Fardell thought possibly the extreme heat and depressing weather had acted upon his brain and nervous centres, and the conditions which some ascribed to insobriety might naturally be due to a totally different cause. He asked the Bench to remember that defendant had suffered the indignity of being taken into custody. A conviction for a man in his position meant, so far as the island was concerned, the forfeiture of not only place and position, but of friends in social life. It would be impossible for him to again discharge the functions of a justice of the peace without having every man pointing the finger of scorn at him.

The Bench imposed a fine, as stated. A sister to Mr. Cochrane is now waiting to the Princess Beatrice, and it was through her influence that he was appointed to the deputy governorship of the island.

RAILWAY RATES CUT

A cut of \$1 in passenger rates between Edmonton and Winnipeg, over the C.N.R. and C.P.R. lines to meet the rate in effect on the new short route over the Grand Trunk Pacific, has just been announced. The single fare over all three lines is now \$23.80, the former fare over the C.N.R. and C.P.R. being \$24.80.

The local ticket offices were advised this morning of the cut in rates. The Grand Trunk Pacific now possesses the shortest possible route to Winnipeg, the mileage over the new line being 792. The C.N.R. mileage is 828 miles, and the C.P.R. mileage via Calgary and over the main line is 1027. When the C.P.R. places a through service on the Wetaskiwin branch to Winnipeg they will make their mileage by that route under present conditions 845, which mileage will be further reduced by the Sedgewick cut off, giving the C.P.R. a line almost as short as the G.T.P.

HIS COFFIN MADE FROM LIVING OAK

Aged Farmer's Will Asks That He Be Buried in Giant Oak Tree

Muncie, Ind., July 8.—A giant oak tree that had been watched from its sapling 75 years ago, to its present size will encase the body of Cary Fenwick, aged 77. His sons today cut down the great tree that grew in the yard of the family homestead and they are fashioning it into a coffin. Upholsters will smooth over the rough parts of the interior, but the cover will be of natural wood. Fenwick, who was a prosperous farmer, had always loved the giant oak and when the relatives yesterday opened his will, they found therein the strange request that he be buried in a coffin made from the tree.

A substitute for the destroyed Deutschland will be constructed as quickly as possible.

NOVA SCOTIA MINERS START TROUBLE AGAIN

Militia May Be Called Out to Restore Order at Springhill

Halifax, July 8.—If the occurrences of last night are again repeated at Springhill, the government will be requisitioned to send the militia to the mining town to maintain order. The strike of the coal miners has been on for a year. The company has been on at work in the mines, the output now being some 500 tons daily, compared with a normal output of 1100 tons.

Last night a crowd of 500 strikers and strike sympathizers gathered at a point adjoining the company's property, making hostile demonstrations and throwing stones. The company's police warned the crowd away and a shower of stones was hurled at the houses, smashing windows and exciting the imported miners. Shots were fired in the air by the company's police and finally the crowd dispersed.

The mayor is said to have announced that he can do no more to maintain order than is being done. A demand for the protection of troops from Halifax is likely to be made at any moment, if not through the mayor or then by the county court judge. The influence of the court prohibiting picketing seems to be a decided factor. One citizen remarked that it is not even contempt of court.

LOSS FROM FIRE WILL BE HEAVY

Forest Fires Have Burned Out Many Contractors and Settlers

Port Arthur, Ont., July 7.—In spite of improved weather conditions, reports are still coming in that bush fires are burning. The total damage cannot be estimated, but it runs into thousands of dollars for this district alone. In addition to this is the personal loss sustained by the settlers and contractors in the destruction of barns, houses, hay, logs, ties, timber and any number of horses.

From Ombahia on the line of the National Transcontinental Railway, Chief Fire Ranger Bliss reports the following damage by forest fires:

Pembick Contracting Co., at Trout Lake, 2 camps destroyed, 1 powder house with much powder and dynamite.

Anderson & Mann, contractors at Tunnel Lake, 2 camps burned, team horses suffocated, all supplies burned.

Harvey & Bloomfield, contractors, storehouse and \$3000 in supplies burned.

Nepheon Construction Co., camp No. 4, burned. At Camp Creek, camps of Simmons and of Murray & Co. destroyed.

Five Valerius O'Connor and Conner townships have also compiled lists of losses by settlers. These number 25 individual losses running as high as \$3000.

Most of these men were wiped out by fire and must start again.

MAN UNDERTAKES 15,000 MILE WALK

Is to Walk From Coast to Coast
Twice by October,
1911

STARTED LAST APRIL

Has Already Worn Out Just
Thirty-Two Pairs of
Shoes

Ottawa, July 8.—Frank Hines, of Halifax, who is making a wager to walk from coast to coast and return, arrived here the other day from Montreal. He will start for Brockville.

The trip was commenced at Nair, Labrador, on April 2, 1910, and from there he walked to St. Johns, a distance of 500 miles crossing by boat to North Sydney. From North Sydney, I.C.R. ties were his road to Montreal, where he arrived ten days ago.

Hines is on a wager of \$2,100 to make the trip to the Pacific coast and return by October 17, 1911. He figures that he is now four days ahead of the schedule, he has mapped out Part of his agreement is that he shall work his way, and he started without any money. Yesterday he called on Sir Wilfrid Laurier, and received a certificate and donation from him. He

is feeling fit for the continuation of the trip, and is well dressed, though he says he has worn out 32 pairs of shoes already. The total trip will be 15,000 miles.

N. Y. FIRE CHIEF INVESTIGATED

Committee May Report Against
Him, But Mayor Gaynor
Will Decide Himself

New York, July 8.—Mayor Gaynor announced today that he will personally look into the findings of the committee which has been investigating the conduct of Edward F. Croker, chief of New York's fire department, in a recent fire in which two firemen lost their lives. The report of the committee is said to be hostile to the chief, but the mayor will rule on the evidence in the report and not on the finding of the committee members. Chief Croker himself is a member of the committee and will file a minority report. The chief has enemies in the department, but he has also a strong backing with the Chamber of Commerce, the New York Board of Fire Underwriters, and the Manufacturers' Association.

OLD INVENTOR HAS DIED IN NEW YORK

Man Who Made First Match-
Making Machine—Improved
Hoop Skirts

New York, July 8.—Joseph Thomas, an old time inventor, died last night at his home, 804 Hudson street, Hoboken, of general breakdown into age to old age. He was 83 years old. His wife died on June 18. He was not informed of her death.

Joseph Thomas was born in a suburb of Paris, France, on March 19, 1827, and came to this country at the age of 10. He became a machinist's apprentice and early began to display his inventive genius. He devised many useful mechanical devices and the men who promoted their manufacture made most of the money.

The invention of the first machine for manufacture of sulphur matches was considered by Mr. Thomas as his greatest work. The machine was able to turn out 20,000 matches a minute. It was on exhibition at the Crystal Palace in New York City in the early '60s, and thousands of people gazed in wonder as it worked. Up to this time sulphur matches had been made by dipping the match sticks into a prepared solution. Thomas realized a goodly sum by the sale of his patent on this machine.

In the '60s Mr. Thomas invented a steel wire hoop skirt which soon became all the rage in this country and elsewhere. He perfected a secret process of tempering steel so that the hoops were pliable and easily accommodated themselves to the fat and slender fair ones who wore the skirts. He sold his invention to a Philadelphia man who manufactured the skirts on an extensive plan and gathered in a big fortune.

When the old North Hudson County Railway Company began the work of constructing a cable road on the trestle leading from the Lackawanna railroad ferry in Hoboken to the top of the bluffs at Jersey City Heights an offer was made to the person who would turn out the best grip to hold the car to the cable. Mr. Thomas got busy and produced a grip which was promptly patented by the railroad people and placed on the cars. The inventor didn't even get much of the glory.

Like most geniuses, Mr. Thomas was not a success as a business man. He had great faith in the honesty of other people and was often the victim of too much confidence. He lived in Hoboken over fifty years and was once induced to enter political life, serving as a member of the Hoboken Common Council in 1862.

WANTS A SURVEY OF GREAT LAKES

Famous English Naturalist Wants
to Make Physical and Bio-
logical Survey

Ottawa, July 8.—With the object of interesting the Dominion government in undertaking a physical and biological survey of the great lakes, Sir John Murray, K.C.B., of Edinburgh, Scotland, and one of the best known naturalists in the United Kingdom, is in the city. Today he visited a number of government departments to ascertain if any steps have as yet been taken to perform this work. Sir John is remembered as having been on its world famous cruise of exploration of the physical and biological conditions of the great ocean basins, which lasted from 1872 to 1876. He was officially appointed to undertake

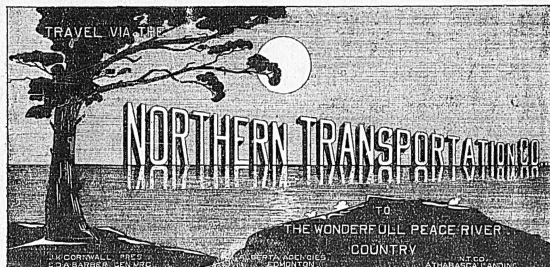

the publication of the scientific results of the expedition. Sir John expresses the view that a great work was to be accomplished in survey of the great lakes, and if such had never

been undertaken thoroughly he was anxious to do the work.

MARK MY WORDS—

The High Level Bridge, which is practically assured, the close proximity of the Provincial University and the low prices we are asking for these lots **confirm me in** saying—it is absolutely the best buying on the real estate market today. This is an opportunity you cannot afford to overlook. **You are buying direct from the owner.** There is no sub-agent's commission tacked on to the price of your lot.

This beautiful property, which we have but recently put on the market, is situated on the Strathcona side, on a gentle slope facing right on the river, presenting a magnificent view of the North Saskatchewan and surrounding country, in what will eventually become the choicest west end property.

Do you realize that the building of the High Level Bridge will make Strathcona and Edmonton one. The bridge will entail a 5-cent car fare from all points in either city, and on completion you will find what this means. Cite any city that you are familiar with where similar conditions prevailed, and you will find it the same.

Lots from \$25 to \$65; \$10 cash, balance to suit purchaser. No interest. Come in or phone and reserve a seat. Auto leaves our office at convenient hour.

About Town

The death took place yesterday of the infant daughter of Mr. and Mrs. Frank Crook, 528 Fraser avenue. The funeral will be held on Saturday at the Edmonton Cemetery.

The death took place in Strathcona at 1:30 this morning of Mrs. Frank Cowles, who had been a resident of that city for a number of years. The funeral service will be held in the Metropolitan Methodist church on Sunday at 2:30 o'clock.

The congregational meeting of Grace Methodist Church will be held this evening at 8 o'clock. Reports for the year will be given and a short programme rendered, after which refreshments will be served.

Installation of officers for Norway Lodge, No. 41, I.O.O.F., will take place at the lodge room, Norwood boulevard, on Monday, July 11th, at 8 o'clock. Refreshments will be served.

At a meeting of the committee in charge of the Horticultural section of the forthcoming exhibition, it was decided that entries for lawns and gardens will close on Saturday, July 16, and that the judging take place the following week. Entries may be made with, and entry forms obtained from the Exhibition Secretary, MacDougall corner, MacDougall avenue.

The Edmonton branch of the Alberta Temperance and Moral Reform League will hold another afternoon meeting in the Orpheum Theatre next Sunday at 4 o'clock. The pictures to be shown are somewhat out of the ordinary, consisting of two parts, "Jerusalem in the Time of Christ" and "David and Goliath." There will also be an illustrated solo, "The Holy City," the soloist being Mr. Harold P. Brown. The chair will be occupied by Mrs. George Kenway.

Yesterday a small shack on the Clover Bar road was raided by the Strathcona police and one woman and several men were arrested. They were brought before Magistrate Downes this morning in the Strathcona police court; the woman was fined \$20. The men were fined \$20 and costs for frequenting the house.

BOSTON HERALD IN RECEIVER'S HANDS

Well Known United States Paper Has \$2,200,000 Indebtedness

Boston, Mass., July 8.—On petition of the International Paper Co. Judge Coll in the United States circuit court yesterday appointed John Morris, an official of the American Newspaper Publishers' Association and Charles F. Wood, an attorney of this city, receivers of the Boston Herald Co., including a bond issue of \$1,700,000 and indebtedness about \$2,200,000.

The court authorized the receivers to issue \$50,000 in certificates to enable the business to be continued. For many years the Boston Herald was one of the best known newspapers in the country. It was established in 1846. Several years ago it moved from Newspaper Row into a modern building on Tremont street. At the present time the company publishes morning, evening and Sunday editions.

BAR FIGHT PICTURES?

(Continued From Page One)

ing and demoralizing in effect. Therefore, it would be most undesirable to have the pictures produced. The special danger is in connection with the young as it would arouse wrong ideas of ambition and greatness."

Rev. Father Calverley, Church of the Immaculate Conception: "You may say that I take exception to the production of the moving pictures of the fight. It is especially demoralizing to the young."

Should Be Made Illegal

Cannon Webb, of All Saints: "The law discriminates between boxing bouts and prize fighting and has made the latter illegal. I take it that the reason for the existence of such a law is not simply to prevent men from inflicting bodily harm upon each other but because the conditions under which such contests are held are considered as degrading to the moral sense of the community. On this ground the scenic production of a prize-fight, with all its demoralizing details fully depicted, should be placed under the same law as the fight itself, since such an exhibition could have but one result, namely, the decided lowering of the moral standard of that portion of the community which witnessed it. If such an exhibition is not illegal at present it should be made so at once."

Vancouver to Have Them

Vancouver, B.C., July 8.—Mayor Taylor, of Vancouver, announced today his willingness to allow pictures of the Johnson-Jeffries fight to be shown, provided miners are not admitted. He issued at the same time a vigorous attack on the Rev. Dr. Spencer, president of the local option league, and of moral reformers generally, for his alleged impertinence and bad taste in attempting to dictate as the mayor said, to himself, what he should do in the matter.

Mayor Lee, of New Westminster, said he would not only allow the pictures but would be an enthusiastic spectator.

Ontario Bar Pictures

Toronto, July 8.—The Jeffries-Johnson fight pictures and all others of a pugilistic nature are barred from the province. "An order in council was passed by the Ontario cabinet yesterday afternoon amending the police regulations to prohibit them. Copies of the new regulations will be sent to the heads of the various police forces of the province as well as to the owners of moving picture shows. The penalty for a breach of the regulations is a fine of \$20 a day and an additional fine of \$25 for each subsequent day the pictures are shown. In default of payment the offender shall go to jail for three months."

India Doesn't Want 'Em

Calcutta, July 8.—The demand for the prohibition of the bioscope pictures of the Jeffries-Johnson fight is spreading in India. The papers suggest that the American authorities should defray the films and compensate the owners.

In Great Britain

London, July 8.—The movement in favor of government action looking to the suppression of the pictures of the Eino fight, is extending to a considerable section of the House of Commons. Both parties support the movement, and some of the morning newspapers advocate the general suppression as tending to prevent glove fights which they say are promoted merely for the sake of the profits from the pictures. The question was discussed by the Glasgow corporation yesterday.

CALEDONIAN SOCIETY

Last night the usual monthly meeting of the Caledonian Society was held in the Separate School Hall, a large attendance of the members being present.

The ordinary routine business was carried through as quickly as possible and then the special business attended to. Mr. J. W. Heron was unanimously elected to the vice president's chair and after the chairman's congratulations made a short speech thanking the members for their preference. Messrs. Jim Martin and C. Byer were elected to fill vacancies on the executive committee, those three gentlemen have for some time been strong supporters of everything Caledonian and the executive felt greatly strengthened by having them on the inside working of the society.

Mr. J. R. Hetherington was presented with a past president's badge and after the presentation made a few appropriate remarks. The president at this point called on Mr. Gordon Reid and in a short address presented him with a set of beautiful cut crystals as a marriage present and as a token of respect and the mark of appreciation for the hard work that he had done in the interests of the society. Mr. Reid was enthusiastically received by the members and in a few words thanked them for their kindness and good wishes.

The matters of having a summer dance on the 28th inst., a moonlight excursion on the river and making the preliminary arrangements for the annual sports was left in the hands of the executive committee to report on at the next meeting.

FAIR GROUNDS ARE ASSUMING SHAPE

Buildings Are Being Rushed Faster Than Ever—Light and Water Systems Laid

The work on the Exhibition grounds is being rushed to completion. Today under Superintendent Stewart, the water pipe system is being laid and the roadway system laid out and gravelled. The construction of the paddock has also been started. Work has begun on the storage building which is expected to be completed within a few days.

The tenders called for the poultry and dog houses have had a time extension until Monday next, while the tenders for the horticultural and dairy buildings will be called for within a few days. The design for the main entrance was agreed to and adopted and the naming and numbering of the buildings will be attended to shortly.

Manager Harrison took up the matter of the electric and water scheme with Superintendent Ormsby and a general scheme for the grounds was decided on.

Work will begin at once on the fire hall and the police station that will be situated on the grounds and the lake will be cleared and grubbed at the end of the week. Altogether the grounds are being finished with all speed and it is expected that they will shortly be in readiness for the opening day.

PETITION PREMIER FOR A NEW BRIDGE

Strathcona Residents Want the Bridge Over Mill Creek—Got Favorable Answer

A deputation consisting of residents of River Heights and Highland park on the northeast side of Strathcona called upon Premier Sifton this morning and asked him to carry out the promise of the Rutherford administration to build a bridge to span Mill Creek near the Strathcona road, and not far from the bridge which accommodates the traffic over the stream at present. In making the request the deputation stated that the land where the bridge should be was purchased by the Strathcona council last year from Donald Ross. They stated that there was no road save the one through P. Anderson's brickyard which was open only through the courtesy of the firm. They said further that many of the residents of that district had their places of business in Edmonton and that some satisfactory means of getting there was necessary. They presented a petition signed by about fifty residents.

Premier Sifton received the deputation cordially and stated that he had received a letter from the subject, Mr. Rutherford on the subject. Before announcing anything, however, he would have to see the place himself, but he intimated that the government would do all they could to remedy the evil. A statement could be expected next week.

JUST ONE MOTOR FOR EACH CAR NOW

Commissioners Decide to Do Away With Double End System

The recommendation of Commissioner Bouillon to have the electric cars operated on a single end car system, instead of a double end system, and will go into effect in the near future. This decision was arrived at at the adjourned meeting of the city commissioners yesterday afternoon. Commissioner Bouillon's reason for the change is that the system would be more up to date, while he pointed out that a saving would be effected in that single end cars call for only one set of motors. It will cost very little to establish the change, and the principal item of expenditure will be the placing of "Y" rails at the end of each line. It is also claimed that the single end cars can be operated more easily.

The building inspector made application for more office space and also for the appointment of another assistant. The former request was refused, while the commissioner decided to go to get the latter, fixing the salary of the new assistant at \$80 a month.

Commissioner Bouillon will communicate with the federal department of public works in reference to the exorbitant rates which the city have to pay because of the right of way which the street cars have over the Saskatchewan river bridge.

A short session of the commissioners was held in the morning at which several matters of routine were disposed of. The commissioners decided to refuse to grant the request of Frank Saunders, assistant building inspector that he should be in charge of the time he was absent from the office.

FEAR RECURRENCE OF FRENCH FLOODS

Continued Rain Has Flooded Many Rivers and Destroyed Hay and Grape Crops

Paris, July 8.—The continuous cold and wet weather is beginning to cause serious alarm here. There has been daily rain for six weeks and the precipitation since the first of January has already exceeded the average rainfall. A recurrence of the floods is threatened. Many streams are full and some are out of their banks. The grape crop is suffering heavily and mildew has made its appearance in the Champagne district. The hay crop is also destroyed.

THE FRESH AIR CAMP

There is room for more applications to form the first party, intended to leave for the park on the 15th inst. Any mother with children able to go with them into the country this summer or parents unable to go themselves, but who desire their children to share the benefits of two weeks' holidays under the camp management, they can be fully assured this break in their lives will be an enjoyable one. The secretary of United Aids will be glad to have communications along this line at once. It looks as if things were taking shape when the following articles are in sight: Tents, beds, seats, tables, recreation requisites, provisions, etc., but all these form an initial outline. The management have also been forced to purchase a democratic which will be in daily use throughout the eight weeks of the camp. The ladies are still hopeful about that good milch cow referred to in a recent article. The cow will be handed back to the owner at the expiration of the camp. Donations are coming in slowly, but it is evident the full significance of this project has not roused that interest it will yet do. Once the camp gets under way the city will be more conversant with this laudable effort to bring cheer and courage into many a struggling home.

Frail will be much appreciated. Our gift in this direction has been made, but the need for generous fruit supplies is apparent. Seventy-five attractive lists of all gifts, whether in cash or goods, will be published in the press from time to time.
